## Journey | The Pursuit of Excellence

**PATANGE INDUSTRIES PVT.LTD., is an ISO : 9001-2008 certified company, located in the industrial city of Pune, in the State of Maharashtra, INDIA and spread over an area of 12000 sq.ft. Easy accessibility by road, rail and air from Mumbai, the financial capital of India, has rendered Pune a very unique advantage in setting up its large industrial base. Patange is engaged in designing, developing and manufacturing all types of CNC machined precision components, assemblies, sub-assemblies, mechanical systems and equipments.**

**The company was established in the year 1988 with a small machine shop. It has grown strength to strength since then with its great vision and capability and is on the forefront of manufacturing precision components and intricate assemblies. The objective was and is to upgrade the business in order to provide better than the best solutions to the clients. With the passage of time, the firm has developed itself from a small proprietary firm to a Private Limited Company and has acquired global customers.**

## 'Q' Factor | Quality Re-defined

Being an ISO 9001-2008 certified company, we have well equipped quality standard room with all quality inspection facility. We ensure high standards of quality systems. Quality check commences right from testing traces of defects in the raw material. Stringent dimensional inspection is meticulously carried out at every cycle and stage of manufacture to ascertain that the finished products are delivered without any flaw. We can always assert that there is not even a minuscule of variation in the dimensions of our products. The finished products are not only manufactured as per the drawings, quality plan / specifications provided by our clients, but our technical experts also go a step ahead to suggest further improvements in the products. Process capability auditing is invariably carried out in-house by our quality engineers. We incessantly strive to reduce customers' complaints targeting to NIL by constant improvement in quality and process technology.

We constantly strive to produce components, which are highly sophisticated and their success is lies in the manufacturing process made by our engineers which determines the quality. Rigorous and systematic quality monitoring is the key to our Quality Assurance. We have in-house infrastructure for carrying out various tests such as hardness test, ultrasonic test (for raw material) / MPI test (for semi finished components) and all the necessary gauges and equipments.

## Infrastructure | A Strong Foundation

Our phenomenal growth from a small machine shop to a VMC, CNC's and CAD equipped setup is attributed to our commitment towards the superlative time and quality management which augur well to focus on customer satisfaction. Our VMC, CNC machinery alongwith its trained and qualified manpower facilitates to deliver products in a very broad spectrum; which includes jobs of Dia 12mm to 560mm and jobs of Length of 10mm to 2000mm. The raw material we use for the products include Mild Steel, Stainless Steel and various alloys of Aluminium, Steel, Tungsten, Copper, Brass and Titanium.

The processes include CNC turning, milling, boring, drilling, grinding, surface coating, phosphate and cadmium plating. We carry out forging in Alloy Steel and Al. Alloy, the facilities which are available with our associate units.

## Achievements | Flight of Success

What zests performance is achievement for us, achievement is setting new benchmarks and attaining them. Passion for excellence has been our way of working. Our work has been recognized and certified by reputed Indian and Foreign Organisations.

## Our Clientele | PIPL .. for Engineering PEOPLE

We are manufacturing and supplying variety of components for the Defence and Automobile Sectors. We are also supplying to overseas clients. Some of our valuable clients are:

- ❖ DIPI-ING, Berlin, Germany
- ❖ MAN, Augsburg, Germany ( At sampling stage)
- ❖ Turbo Gears India Pvt. Ltd. (Carraro Group Italy)
- ❖ Noble International L.L.C. Sultanate of Oman
- ❖ TEREX MHPS GmbH. ( Germany)
- ❖ Acquatech Systems (ASIA) Pvt. Ltd.
- ❖ Indian Ordnance Factories (IOF)
- ❖ Defence R&D Organisation (DRDO)
- ❖ Bharat Dynamics Limited

### Memberships

- ❖ Indo-French Chambre of Commerce of Industry
- ❖ Maratha Chamber of Commerce, Industry and Agriculture
- ❖ Tradeindia
- ❖ NSIC CRISIL Performance & Credit Rating for Small Scale Industry
